DSP 6" x 6"  
Cajun Craze 2⅝" x 2⅝"  
Cajun Craze scraps for die cutting

## Slimline Mini Calendar Stand

### Instructions

- Prep all paper as noted.
- Fold and burnish card base as a 'Z' fold — mountain fold the left scoreline and valley fold the right scoreline.
- Position the 6" x 6" patterned paper on the work surface with directional pattern in correct orientation. We'll be cutting this into three pieces. Starting on the left side, cut off one 3" strip. Then cut off the next strip at 1½". There will be a second 1½" strip left. Keep the strips in order forming the original scene.
- Adhere the strips to the panels of the cardstock, keeping the strips in order. Set aside.
- Place the 3¼" x 6" scored piece of Coastal Cabana cardstock and place it in the trimmer with the long edge at the top. Cut into four sections at 1½" intervals.
- Fold and burnish all four scorelines on all four sections.
- Place one of the sections on the work surface in landscape position with the smallest 'flap' on the left. Fold the second scoreline over towards the right, so two sections on the left overlap the strip. Add liquid glue to the smallest flap. Fold one section from the right over the smallest flap and press to adhere. Let dry for 30 seconds.
- Repeat for the remaining three sections.
- Flatten one tube so the seam is in the back middle. Add liquid glue to the back. Align the front scored line with the valley fold on the card base, and the bottom of the tube with the bottom of the card base. Press flat and hold for 30 seconds to adhere.
- Repeat with a second tube but align the top edge to the top of the card base.
- Repeat with the remaining two tubes, spacing them equally in between the top and bottom.
- Put three lines of Stampin' Seal+ on the back of the 2026 mini calendar and adhere to the Cajun Craze mat.
- Put three lines of Stampin' Seal+ on the back of the mat and adhere to the bottom portion of the front left flap.
